UPDATES/REVIEW

President Obama Address

I feel that this address does align with Olentangy's curriculum through these specific talking points at all grade levels in the district's Guidance Curriculum Maps:

- students will be academically prepared to set goals and make informed decisions about post-secondary options;
- students will identify and utilize strategies to achieve future career goals;
- students will identify the connections among personal qualities, education, training and the world of work; and,
- students will make decisions, set goals and take necessary action to achieve goals.
